WHAT WE DO

We are your experts in service revenue management

Tesedi offers Hewlett-Packard partners an innovative and highly specialised complete solution for management of service agreements. From professional offer preparation for your customer's service requirements to handling renewals of agreements and proactively supporting your agreement portfolio over the entire lifecycle.

With over 600 satisfied retail partners across several countries, the figures speak for themselves. You can also benefit from the experience, know-how and proven expertise of Tesedi's experts and benefit from higher renewal rates, more revenues, less administration work and more time for your customers.

YOUR BENEFITS

Customised service agreements

With Tesedi, you can explore new ways for your service revenue management. Working with the latest technology, our contract experts will help you to reduce all administrative costs for managing service agreements over the entire lifecycle of your customers' IT infrastructure and ensure that expiring service agreements are renewed successfully in time.

Comprehensive expert advice

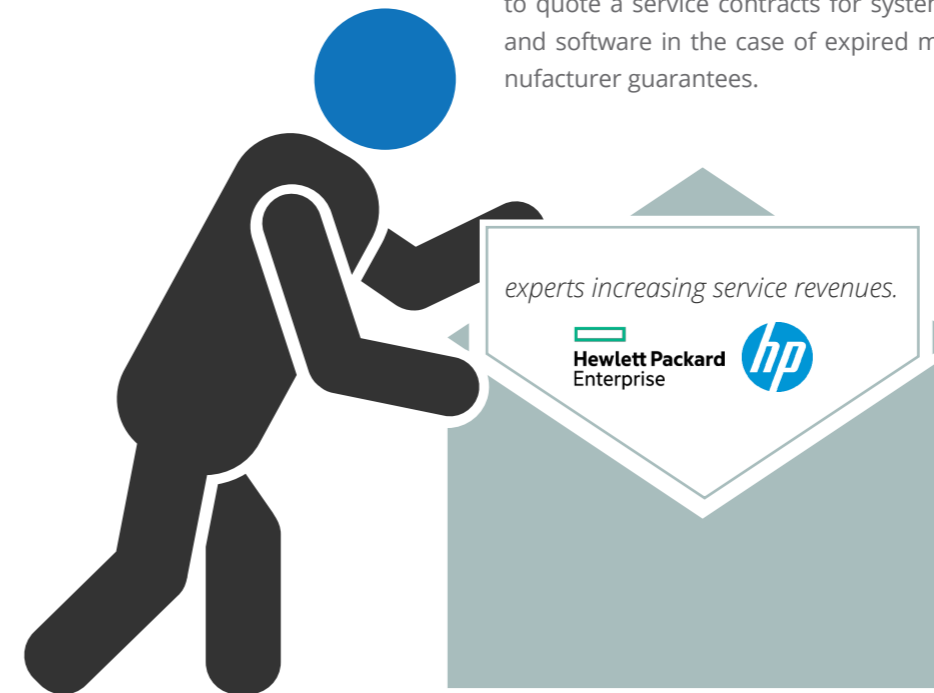

Use of the latest technology

ABOUT US

TESEDI – Focused and experienced

Tesedi GmbH "Technology Service Distribution" was founded in 2005 for HP as the first European service-only distributor and has focused exclusively on sales and renewals of expiring service and maintenance agreements since it was founded. Thanks to our clear focus – we don't provide either hardware or software products – and our status as a neutral and highly specialised service-only distributor, we are ideally positioned to offer comprehensive support to Hewlett-Packard partners for their service revenue management. Learn more about us and benefit from higher renewal rates, more revenue and greater customer satisfaction.
